By Mahdi Garba

On Tuesday 23, July 2019 the ailing leader of the Islamic Movement in Nigeria, Sheikh Zakzaky was diagnosed with some bullets in his brain aside the 7 complications he has been battling with since December, 2015.

The sexagenarian leader of Islamic Movement now uses a wheelchair as he cannot walk anymore. This is aside the high level of cadmium and lead that were discovered in his body recently by a toxicologist as a result of poisoning.

It would be recalled that on Thursday, 18 July 2019, the Kaduna State High Court 4 presided by Justice Gideon Kurada has adjourned the sitting requesting for medical attention in India to Monday, 29 July 2019. Surprisingly, the case has further been adjusted of Monday the 5th of August 2019
