---

Few hours after his arrival at Madanta Hospital in New Delhi, India, Nigerian Government through its security agents that escorted leader of the Islamic Movement in Nigeria, Sheikh Ibraheem Zakzaky, where he went for Medical treatment, are devising different types of plots to frustrate Doctors from offering emergency treatment to the Sheikh whose health has seriously deteriorated as a result of the gunshots inflicted on him by the Nigerian army and his subsequent poisoning during his detention in Kaduna where he was illegally detained and deprived Medical attention for years.

Reports reaching us from the hospital indicate that the security agents are colluding with foreign security agents believed to be working for American government.

Earlier, even before the Sheikh arrived the hospital, we gathered from competent source that officials of American embassy in India instructed management of the hospital not to admit the Sheikh there for treatment.

The source added that even as the doctors were enthusiastically waiting to receive the Sheikh to save his life, the American secret agents have threatened the hospital officials not to go ahead to treat the Sheikh at the hospital.

We are calling on the Nigerian Government to stop playing double standard in the unfolding and new twist in the plight of the Sheikh.

We are also calling on the international community and people of conscience and humanity, especially those that facilitated the travelling of the Sheikh to India for treatment to prevail on the Nigerian Government and its western Masters to stop playing with the life of the innocent leader and who is victim of their continuous plot to ensure that he dies.

Signed

Mikaila Yunusa

# **PRESS STATEMENT: NIGERIAN GOVT IS FRUSTRATING THE TREATMENT OF SHEIKH ZAKZAKY IN INDI**
