In the name of Allah, the Beneficent, the Merciful

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

It is with deep sorrow that we received the shocking news of the passing of Ayatollah Mohammad Taqi Misbah-Yazdi. Until his death, this revered scholar dedicated his whole life imparting knowledge, promoting political ideology and protecting sites that are holy to the Muslim Umma, and their affairs.

The late scholar had been one of the foremost Islamic thinkers as evidenced by his acclaimed researches as well as many legacies he has left behind.

The late Ayatollah Mohammad Taqi Misbah-Yazdi had been a force behind reshaping the direction of the modern society especially his relentless efforts to unite the entire Muslim umma. He is worthy of emulation when it came to bringing Muslims together by avoiding unnecessary frictions and confronting their sworn enemies that they all shared in common. He was very concerned and gave a very high priority on addressing the ordeals of Sheikh Zakzaky and the Islamic movement these past few years.

Sadly, in the last years of his life, the sheikh struggled with a recurring health condition.

It is with a heart that the Sayyid Zakzaky Office extends its condolence message to his family members, friends, council of ulama and seminaries.

We pray that Allah (SWT) forgive his soul and make Jannat to be his final abode. May Allah give whoever mourns his death, the fortitude to bear this irreparable loss. May Allah also grant good health to other respected scholars who will continue to build on the philosophy the deceased had championed throughout his life.
