Members of medical team to the Islamic movement in Nigeria kown as ISMA held a three days seminar in Azare, Bauchi state which wrapped up on Sunday the 14th of March 2021. Different lectures were delivered by professionals within and outside the movement on topics related to current global health challenges.

ISMA carries free humanitarian activities during any crises or disease outbreak to communities in Nigerians at different levels.

However the Buhari APC led government killed many of it's members, medical professionals at various Nigerian health institutions including the ISMA National Chairman and former Medical Director at Kaduna Polytechnic Dr. Mustafa Umar Sa'id during the unforgettable Zaria massacre at Sheikh Zakzaky's residence in December 2015.

Islamic movement has so many branches rendering free services to Nigerians, ISMA is one of them.
